

REBUILDING

ASSISTING NONPROFITS IN DEVELOPING A 'RECOVERY ROADMAP'

As we progress out of the Respond phase of managing the early unpredictable stages of the crisis, into a Recover and Rebuild phase, many nonprofit executives, boards and staff are beginning to embrace the shift from 'today' to a 'tomorrow' mindset.

We are Fostering and Inspiring our Nonprofit Community to:

- Shift their organizational mindset by anticipating what success looks like at the end of recovery-how their organizations will thrive in the future
- Navigate uncertainties by seizing opportunities to transform, grow and reinvent
- Invest in building a new and yet to be-defined equilibrium which might include different operating models

NEW COMMUNITY DEVELOPMENT HUB

The HUB will build a collaborative network of the leaders of area non-profits, businesses, education, social service, environmental, animal, human rights, economic development, art and cultural programs.

The HUB will accomplish this through convening community conversations to determine and prioritize critical needs and then provide the following services as primary functions of The HUB.

2221 I-19 Frontage Rd. Suite F101 Tubac, AZ 85646 • 520.625.4556
